

WYCOMBE Wanderers could be without the services of key players Mick Holifield and Geoff Anthony tonight (Tuesday) when they take on Oxford City at Loakes Park in the Rothmans Isthmian League.

Holifield went to hospital on Saturday with suspected broken toes. However, X-rays revealed only bruising and of the two players, Mick is more likely to play than Anthony who pulled a thigh muscle in Saturday's vic-

tory over Sutton. Geoff had his leg strapped up at half time but was replaced in the second half. Dylan Evans is the obvious man to take over.

Oxford have made a poor start to the season with only one victory from five matches, three of which have been lost and one drawn. They went down 2-0 at home to Kingstonian in the first game of the season and then drew 1-1 at home to Hayes. The lone victory came at Sutton, but

only after United's goalkeeper had been taken off injured after half an hour. A John Woodley penalty gave them the three points with 10 minutes to go.

Oxford's next match was at Hendon. They went down 5-0 and in their last game, at home to Tooting on Saturday, City again lost 2-0.

One player Oxford have been missing is the holidaying Kevin Fagan while two new players

have been signed this season. Martin Prescott and Frank Allen both came from Witney Town. Allen played a game for Wycombe last season when he was with the Wallingford club.

Although Oxford have suffered a disappointing start to their campaign, they always seem to raise their game against Wycombe, who could have problems in breaking down a defence always well marshalled by the veteran John Woodley.
